**“Animal welfare is about more than rescue—it is about prevention and partnership.”**

## From Our Executive Director

At Siskiyou Humane Society, our mission is clear: to protect, care for, and advocate for the animals who depend on us. Every day, we work to create a community where compassion leads the way, giving every pet the chance for a healthy, happy life while ensuring every person has access to the resources they need to be a responsible, loving pet owner.

In 2025, we offered a safe haven for more than seven hundred animals, provided one hundred spay and neuter vouchers to help our community reduce pet overpopulation, and hosted seven low-cost vaccine clinics to keep pets healthy and protected. These efforts reflect our commitment to treating every animal with dignity and respect, whether they are with us for a day or a lifetime. Beyond sheltering, we focused on education, outreach, and community support—because animal welfare is about more than rescue; it is about prevention and partnership.

This work is only possible because of the incredible support of our volunteers, donors, community partners and staff.

Together, we are building a future where fewer animals face abandonment, where families have the tools they need to care for their pets, and where kindness is the foundation of every decision.

As we look ahead to 2026, we are committed to expanding community spay/neuter access, increasing outreach, and continuing to provide lifesaving care for every animal who needs us.

Thank you for standing with us. Your continued support ensures that Siskiyou Humane Society remains a safe place for animals in need—and a trusted resource for the people who love them.
